

Ancient PATHWAYS

Footprints Of The Bushmen

13 DAYS — SOUTH AFRICA & BOTSWANA

You are invited to an exclusive showing of the oldest art in the world: Bushman Rock Paintings. Dating back over 10,000 years, this fragile heritage of mankind debuts in the mountains just above our lovely Relais & Chateaux lodge. This spectacular, semi-arid setting is also a perfect venue for hiking, canoeing and other active pursuits. The journey to trace the history of a people threatened by cultural extinction continues to Jack's, a 1940's style camp, located in the lunar-like environment of the Makgadikgadi Salt Pans. Experience quiet seclusion and walks with your Bushman guides. Encounter desert-adapted animals as well as other fascinating elements indicative of the desert's unique geology, archaeology and anthropology. All of this contrasts with the rich crescendo of your last stop: abundant game-viewing from an award-winning lodge, in the heart of Botswana's Okavango Delta.

AFRICA!

An ancient Bushman myth related how the moon once looked down on his people and saw how afraid they were of dying. Moved in its heart with compassion, the moon summoned the fastest animal, the hare, and commanded it. "Run! Tell my people to look at me and know that as I, in dying, am renewed again, so they, in dying will be renewed again."
