

## LUXURY UNDER CANVAS

### HOW A MOBILE TENTED SAFARI WORKS

**Overview:** Luxury mobile-tented camps are set up in the wilderness for several nights at a time and then combined with a day or so in between at specially selected lodges and bush homes to provide the correct balance of adventure and elegance.

**Your Skilled Safari Team:** A professional guide, camp manager, safari chef and camp staff, accompany our guests on safari.

**The Tents:** Spacious, insect proof large walk-in canvas safari tents as well as a private veranda. Adjoining the rear of the tent, the en-suite bathroom typically includes a dressing table, hand basin, hot water bucket shower, enclosed lavatory, and luxurious bath linen and bathroom accessories. Laundry service is available.

**The Furnishings:** Typically, there are two single beds complete with comfortable mattresses, duvets and pillows, luxurious bed linen, small tables, a carpet and kerosene, or battery-powered lamps. Two comfortable chairs outfit the veranda. Guests tents are serviced daily.

**The Vehicles:** Rugged custom 4 x 4 vehicles ensure maximum comfort and safety and contain communication radios, flora & fauna guidebooks, cool box for water and cold drinks, thermos with tea and coffee, and sand bags for photography. Auxiliary supply trucks travel ahead to pitch and prepare our next campsite ahead of us.

**The Meals:** 3-course menus cooked open air, and a fine collection of wines and beverages are presented in a candlelit-dining tent or under the stars in a tradition of style dating back decades.

**The Central Guest Area:** Comprising a dining area and library combined, it is tented and furnished with a dining table, directors chairs, a bar stocked with soft drinks, mineral water, beers, wine, spirits, liquors and ice (from water that has been boiled). An outdoor area includes a fire pit with chairs around it.
